

Wealth Strategist Job Description

At CI Private Wealth, we focus on exceeding client expectations every day. That starts with attracting and retaining top talent.

We are currently searching for a highly motivated, detail oriented, and experienced Financial Planner to join our Chicago Wealth Strategy Group as a Wealth Strategist.

What you would do as a Wealth Strategist:

- Own and drive the financial planning process, which includes designing, analyzing, and presenting customized plans tailored to each client's unique circumstances.
- Identify issues and value-added planning opportunities for review and discussion with clients and clients' advisors. Areas of emphasis include:
 - Financial Independence and Cash Flow analysis
 - Estate and Wealth Transfer planning
 - Education planning
 - Tax planning
 - Insurance needs analysis
 - College savings
 - Social Security planning and optimization
 - Executive compensation planning
- Deliver plans to clients in a clear and understandable manner. Responsibilities will include meeting preparation, financial plan construction, presentation of the plan to the client, meeting follow-up and ongoing client service.
- Become a subject matter expert, staying current on planning issues, communicating updates to our team, and contributing content to the Firm's website (blog) and social media channels.
- Coach and counsel advisors on financial planning strategies
- Lead, mentor, and coach less experienced financial planners.
- Contribute to the Firm's strategic direction of its financial planning service offering.

For you to succeed, you should:

- Be passionate about serving clients and financial planning strategies
- Possess:
 - 6+ years' experience delivering financial plans and advice directly to clients
 - Certified Financial Planner (CFP), CPA, or JD designation required
 - Bachelor's degree
- Proficient in Microsoft Office suite (Word, Excel, PowerPoint).
- Proficiency with financial planning, Social Security analysis, and tax projection software; MoneyGuidePro and Holistiplan Tax Software expertise is a plus.
- Advanced knowledge of personal tax issues and estate planning.
- Professional, personable, tactful, efficient, and self-motivated.
- Strong interpersonal skills and sense of teamwork valued.
- Experience presenting to clients in a competent, confident, persuasive, and empathetic manner. Able to formulate knowledgeable and convincing answers to tough questions on the spot.
- Strong organizational skills, multitasking, accuracy, service-minded, and meticulous adherence to details required.
- Entrepreneurial-minded approach to business
- Strong written and verbal communications skills.

Wealth Strategist Job Description

About CI Private Wealth

CI Private Wealth is made up of teams of highly experienced and accredited wealth management specialists working together to provide our clients with a profoundly different wealth advisory experience. We serve more than 10,000 clients—offering deeply personal service and local expertise with the resources and support of a global leader to seamlessly serve all of their financial needs.

Structured as a partnership, CI Private Wealth offers team members the opportunity to earn a direct ownership stake in the company. We believe this uncommon business model aligns our interests with our clients and is what enables us and our partner firms to maintain our entrepreneurial spirit.
